# ESTATE PLANNING

Henson Efron estate planning attorneys counsel clients on matters from simple wills to complex tax and business succession planning. While some clients wish to strictly minimize transfer or estate taxes, others have unique business or family goals, which take precedence over tax considerations. Our estate planning attorneys work closely with our clients to understand their goals and develop an integrated estate plan. Where appropriate, we recommend and assist our clients with implementing charitable and family gifting programs to maximize their goals.

## Estate Planning Services

- Antenuptial and Postnuptial Agreements

- Wills

## Elder Law

The practice of elder law encompasses a variety of issues that impact the aging population and their families. The elder law attorneys work closely with individuals and their families to personalize a plan. Many of our clients are concerned about the high cost of nursing home care and our elder law attorneys can assist with the preparation of an asset preservation plan, as well as other planning documents, such as powers of attorneys and health care directives.

## Elder Law Services

- Asset Preservation
- Guardianships and Conservatorships
- Health Care Directives
- Powers of Attorney
